

Drug Coverage Policy

Effective Date......07/01/2025
Coverage Policy Number.....IP0011
Policy Title...Brands with Bioequivalent
Generics

Brands with Bioequivalent Generics

INSTRUCTIONS FOR USE

The following Coverage Policy applies to health benefit plans administered by Cigna Companies. Certain Cigna Companies and/or lines of business only provide utilization review services to clients and do not make coverage determinations. References to standard benefit plan language and coverage determinations do not apply to those clients. Coverage Policies are intended to provide quidance in interpreting certain standard benefit plans administered by Cigna Companies. Please note, the terms of a customer's particular benefit plan document [Group Service Agreement, Evidence of Coverage, Certificate of Coverage, Summary Plan Description (SPD) or similar plan document] may differ significantly from the standard benefit plans upon which these Coverage Policies are based. For example, a customer's benefit plan document may contain a specific exclusion related to a topic addressed in a Coverage Policy. In the event of a conflict, a customer's benefit plan document always supersedes the information in the Coverage Policies. In the absence of a controlling federal or state coverage mandate, benefits are ultimately determined by the terms of the applicable benefit plan document. Coverage determinations in each specific instance require consideration of 1) the terms of the applicable benefit plan document in effect on the date of service; 2) any applicable laws/regulations; 3) any relevant collateral source materials including Coverage Policies and; 4) the specific facts of the particular situation. Each coverage request should be reviewed on its own merits. Medical directors are expected to exercise clinical judgment where appropriate and have discretion in making individual coverage determinations. Where coverage for care or services does not depend on specific circumstances, reimbursement will only be provided if a requested service(s) is submitted in accordance with the relevant criteria outlined in the applicable Coverage Policy, including covered diagnosis and/or procedure code(s). Reimbursement is not allowed for services when billed for conditions or diagnoses that are not covered under this Coverage Policy (see "Coding Information" below). When billing, providers must use the most appropriate codes as of the effective date of the submission. Claims submitted for services that are not accompanied by covered code(s) under the applicable Coverage Policy will be denied as not covered. Coverage Policies relate exclusively to the administration of health benefit plans. Coverage Policies are not recommendations for treatment and should never be used as treatment quidelines. In certain markets, delegated vendor quidelines may be used to support medical necessity and other coverage determinations.

OVERVIEW

The FDA Office of Generic Drugs follows a rigorous review process to make sure that, compared to the brand-name (or innovator) medications, the proposed generic medications:

- Contain the same active/key ingredient;
- Have the same strength;
- Use the same dosage form (for instance, a tablet, capsule, or liquid); and

Page 1 of 11

• Use the same route of administration (for instance, oral, topical, or injectable).

FDA's review process ensures that generic medications perform the same way in the human body and have the same intended use as the name brand medication. Health care professionals and consumers can be assured that FDA-approved generic drug products have met the same rigid standards as the innovator drug. All generic drugs approved by FDA have the same high quality, strength, purity, and stability as brand-name drugs. In addition, FDA inspects facilities to make certain the generic manufacturing, packaging, and testing sites pass the same quality standards as those of brand-name drugs.¹

A multi-sourced brand drug is a brand-name drug that is marketed or sold by two or more manufacturers or labelers, is no longer protected under patent exclusivity, and has a therapeutically equivalent generic available.

Coverage Policy

This Coverage Policy supports medical necessity review for brands with bioequivalent generic drugs available, not addressed in any other policy.

Brands with bioequivalent generic products listed in the table below are considered medically necessary when the following criteria are met:

The patient has tried the bioequivalent generic product AND cannot take due to a formulation difference in the inactive ingredient(s) [for example, difference in dyes, fillers, preservatives] between the brand and the bioequivalent generic product which, per the prescriber, would result in a significant allergy or serious adverse reaction.

Any other exception is considered not medically necessary.

All products are approved for a duration of 12 months unless otherwise noted.

Non-Covered Brand	Bioequivalent Generic
Abilify	aripiprazole
Aciphex tablet	rabeprazole sodium tablets
Accupril	quinapril tablet
Accuretic	quinapril/hydrochlorothiazide
Actos	pioglitazone
Acular 0.5% solution	ketorolac 0.5% solution
Acular LS 0.4% solution	ketorolac 0.4% solution
Aczone (5% gel and 7.5% gel pump)	dapsone topical gel
Aldactone	spironolactone
Alinia tablets	nitazoxanide tablets
Alphagan P 0.15% ophthalmic solution	brimonidine tartrate ophthalmic solution
Altace	ramipril capsule
Amitiza	lubiprostone
Anafranil	clomipramine capsules

Clobex 0.05% Spray	clobetasol 0.05% spray	
Clozaril	clozapine	
Colcrys	colchicine tablet	
Combigan ophthalmic solution	brimonidine tartrate/timolol maleate ophthalmic solution	
Coreg	carvedilol tablet	
Coreg CR	carvedilol extended-release capsule	
Corgard	nadolol	
Cortef	hydrocortisone tablet	
Cosopt solution	dorzolamide and timolol solution	
Cosopt PF solution	dorzolamide and timolol solution dorzolamide and timolol preservative free solution	
Coumadin	warfarin	
Cozaar	losartan tablet	
Cymbalta	duloxetine delayed-release capsules	
Cytomel	liothyronine	
DDAVP injection	desmopressin acetate injection	
DDAVP tablet	desmopressin acetate tablet	
Delestrogen intramuscular	estradiol valerate intramuscular injection	
injection	divelore ov codium	
Depakote FR	divalproex sodium	
Depakote ER	divalproex sodium ER	
Depakote sprinkle Desowen cream	divalproex sodium desonide cream	
Detrol	tolterodine tablets	
Detrol LA	tolterodine ER capsules	
Diastat, Diastat Acudial	diazepam doxylamine succinate and pyridoxine hydrochloride delayed-	
Diclegis	release tablets	
Diffuson suspension		
Diflucan suspension Diflucan tablet	fluconazole suspension fluconazole tablet	
Dilantin, Dilantin-125,	phenytoin	
Phenytek	valsartan tablets	
Diovan HCT	valsartan/hydrochlorothiazide tablets	
Diovan HCT		
Durezol 0.05% emulsion	difluprednate 0.05% emulsion triamterene	
Dyrenium		
E.E.S. 200 mg/5 mL	erythromycin ethylsuccinate 200 mg/5 mL granules for	
Effoyor VD	suspension	
Effexor XR	venlafaxine hydrochloride extended-release capsule	
Elivenhyllin	pimecrolimus the appulling 90 mg/15 ml calution	
Elixophyllin	theophylline 80 mg/15 mL solution	

Page 4 of 11 Coverage Policy Number: IP0011

Non-Covered Brand	Bioequivalent Generic
Emend capsules and Emend	aprepitant oral capsules
Trifold Pack	
Epaned	enalapril maleate powder for oral solution, enalapril maleate
'	oral solution
EryPed 400	erythromycin 400 mg/5 mL suspension
Estrace tablets	estradiol tablets
Estrace cream	estradiol cream
Estrogel	estradiol gel 0.06%
Exforge	amlodipine and valsartan
Exforge HCT	amlodipine, valsartan and hydrochlorothiazide
Evoxac	cevimeline hydrochloride capsules
Felbatol	felbamate
Femara	letrozole tablets
Flomax	tamsulosin hydrochloride capsules
FML	fluorometholone
FML Liquifilm 0.1%	fluorometholone 0.1% suspension
