Medications that will be non-preferred under the Cigna Healthcare medical benefit.*

Date Change Starts	Medication Name	Drug Class	Preferred medications
January 1	STELARA 130 MG VIAL ⁸	Pain Relief and Inflammatory Disease	SELARSDI, USTEKINUMAB-TTWE, YESINTEK
	USTEKINUMAB 130 MG VIAL ⁸	Pain Relief and Inflammatory Disease	SELARSDI, USTEKINUMAB-TTWE, YESINTEK

* Some medications are covered under the pharmacy benefit, some are covered under the medical benefit and others are covered under both benefits. Medications that are injected or infused and are given to you at a doctor's office, hospital, an infusion center or at home are typically covered under the medical benefit.

1. **Important information about the changes listed in this flyer.** Certain state laws may require these changes to start at a later date. For example, if we're making a change to your medication on January 1 but your new plan year doesn't start until November 1, the change(s) won't affect you until November 1. To find out if these laws apply to you, please call the number on your ID card.
 - **Connecticut, Louisiana, Nevada, New York and Texas:** Your plan may be required to continue covering your medication as it is now, until your new plan year starts.
 - **Illinois:** If you currently have approval from Cigna Healthcare for your medication to be covered, your plan may be required to continue covering your medication as it is now, until your new plan year starts.
2. **This change may not affect you.** Not all plans have extra coverage rules (requirements) on medications. Log in to the myCigna App or myCigna.com, or check your plan materials, to see if yours does.
3. If your doctor feels a different medication isn't right for you, your doctor's office can ask us to cover this medication. Ask your doctor's office to contact us to start the coverage review process or to appeal the denial of coverage. Your doctor's office knows how the process works and will take care of everything for you. If you don't get approval and continue to fill this medication on or after January 1, it won't be covered. You can still fill it (without using your plan/insurance), but you'll pay its full price at the pharmacy counter. And, if you do this, your costs can't be applied to your annual deductible or out-of-pocket maximum.
4. **If you currently have approval (prior authorization) from Cigna Healthcare for this medication to be covered, your plan will continue to cover it through December 31 (or the date you were approved through), whichever comes first.** After that time, it will no longer be covered.
5. **This change only affects customers filling a prescription for this medication for the first time on or after January 1.** If you currently have approval (prior authorization) from Cigna Healthcare for your plan to cover this medication, your plan will keep covering it as long as your prescription doesn't change.
6. If you currently have approval (prior authorization) from Cigna Healthcare for this medication to be covered, we're changing that approval. As of January 1, you'll no longer have approval (prior authorization) to fill the brand-name medication. Instead, **your approval will only be for its generic version**, which your plan will cover until your current approval period ends.
7. If you currently have approval (prior authorization) from Cigna Healthcare for this medication to be covered, your plan will keep covering it until your approval period ends. After that time, it will no longer be covered.
8. If you currently have approval (precertification) from Cigna Healthcare for this medication to be covered under your medical benefit, your plan will keep covering it until your approval period ends. After that time, it will no longer be covered under your medical benefit.
9. If you currently have approval (prior authorization) from Cigna Healthcare for this medication to be covered, your plan will keep covering it until your approval period ends. After that time, it will no longer be covered.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the U.S. Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.
