ADVANTAGE FOUR TIER PRESCRIPTION DRUG LIST

July 2015

The Advantage Four Tier Prescription Drug List lets you and your doctor choose medications that work best for you. The following is a list of the most commonly used medications covered under your plan.

This list is designed to cover your prescription medications at four levels. The amount you pay depends on the tier from which you and your doctor select your medication. If there is more than one medication appropriate for your condition, we suggest that you talk to your doctor about lower-cost generic medications to see if they could be right for you.

Together, all the way.®

Cigna®

Offered by: Connecticut General Life Insurance Company or Cigna Health and Life Insurance Company.

827364 p 11/15

1st Tier – Preventive Generic Medications: Preventive generic medications for certain conditions such as diabetes, asthma, heart disease and cholesterol are available on the first tier. You will usually pay less for preventive generic medications under your plan.

2nd Tier – Other Generic Medications: All other generics aside from preventive generics are available on the second tier. These medications will usually cost more than preventive generics, but less than preferred brand medications under your plan.

3rd Tier – Preferred Brand Medications: Preferred brand medications, for which there is not an alternative generic medication, are covered on the third tier.

4th Tier – Specialty Medications: Specialty medications covered on the fourth tier are higher-cost medications that may require special handling and authorization and typically treat conditions such as multiple sclerosis, hepatitis C and rheumatoid arthritis.

NOTE: *The Advantage Four Tier Prescription Drug List excludes brand name medications that are not preferred. For these medications, you will be responsible for paying 100% of the discounted cost.*

The symbols on the list mean

If a medication on the list has one of the following symbols, your doctor may need to get an authorization for coverage of that medication.

PA:	**Prior Authorization** may be required for different reasons. To learn the requirements needed for coverage of a specific medication, feel free to give us a call.
QL:	**Quantity Limit** means you may have coverage for a limited amount of a specific medication.
AGE:	**Age Requirement** means an individual must be within a specific age group for a specific medication to be covered.
ST:	**Step Therapy** is a prior authorization program that requires you to try other medications available to treat the same condition before the "ST" medication is covered.

The Advantage Four Tier Prescription Drug List does not cover medications that have over-the-counter (OTC) alternatives (e.g., medications that treat stomach acid conditions and non-sedating antihistamines to treat allergies), depending on your plan. In these cases, the medications in the same class that are available by prescription are also excluded from coverage. Examples (not an all-inclusive list) include allergy medications such as Allegra, Clarinex, Xyzal and any generics; and heartburn/ulcer medications such as Nexium, Prilosec, Zantac, and any generics.

Also, the Advantage Four Tier Prescription Drug List does not cover Human Growth Hormone medications.

Health care reform and you

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as "health care reform," was signed into law on March 23, 2010. This important legislation will result in changes to every American's health coverage. Cigna will comply with all provisions of the law including those that impact your pharmacy coverage plan. For example, coverage for medications that have not traditionally been included in pharmacy plans, such as specific over-the-counter (OTC) medications, may be made available at no cost share to you. As with all covered medications, we would require a prescription from your doctor to process the claim under your pharmacy plan (including OTC medications).

To get the most current information, visit **www.informedonreform.com** or **Cigna.com** and look for the "Informed on Reform" link.

If you have any questions

Remember, this list is just a sample of the most commonly used medications, and is subject to change. You can use the Prescription Drug Price Quote tool available on **myCigna.com** to see and compare the prices of all medications covered under you plan. Or, you can call the number on the back of your ID card to speak with a customer service representative at any time.

Exclusions & Limitations

Plans typically do not provide coverage for the following, except as required by law or by the terms of your specific plan:

1. Any medications available over-the-counter (OTC) that do not require a prescription by federal or state law, and any medication that is a pharmaceutical alternative to an OTC medication other than insulin [examples include OTC Benadryl, Maalox, Sudafed PE, etc.].
2. Medications that are therapeutically equivalent as determined by the Cigna HealthCare Pharmacy and Therapeutics Committee in which at least one of the medications within the class is available over the counter [examples include Rx equivalents to OTC Allegra, Claritin and Zyrtec (Allegra D, Clarinex, Xyzal) and Rx equivalents to OTC Prevacid, Prilosec and Zantac (Aciphex, Kapidex, Nexium, Axid, Pepcid, Zantac)].
3. Any injectable infertility medications, and any injectable medications that require health care professional supervision and are not typically considered self-administered medications. The following are examples of health care professional-supervised medications: injectables used to treat hemophilia and RSV (respiratory syncytial virus), chemotherapy injectables and endocrine and metabolic agents.
4. Any medications that are experimental or investigational within the meaning set forth in the summary plan description.
5. Food and Drug Administration (FDA) approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication in one of the standard reference compendia (The United States Pharmacopoeia Drug Information or The American Hospital Formulary Service Drug Information) or in medical literature. Medical literature means scientific studies published in a peer-reviewed national professional medical journal.
6. Any prescription and non-prescription supplies (such as ostomy supplies), devices and appliances.
7. Implantable contraceptive products.
8. Any fertility medication.
9. Any medications used for treatment of sexual dysfunction, including but not limited to erectile dysfunction, delayed ejaculation, anorgasmia and decreased libido.
10. Any prescription vitamins (other than prenatal vitamins), dietary supplements and fluoride products.
11. Medications used for cosmetic purposes, such as medications used to reduce wrinkles, medications to promote hair growth, medications used to control perspiration and fade cream products.
12. Any diet pills or appetite suppressants (anorectics).

13. Prescription smoking cessation products.
14. Immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis (the prevention of travel-related diseases).
15. Replacement of prescription medications and related supplies due to loss or theft.
16. Medications used to enhance athletic performance.
17. Medications that are to be taken by, or administered to, a customer while the customer is a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises, or allows to be operated on its premises, a facility for dispensing pharmaceuticals.
18. Prescriptions more than one year from the original date of issue.
19. Human Growth Hormone medications.

Cigna reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

"Cigna" and the "Tree of Life" logo are registered service marks, and "Cigna Home Delivery Pharmacy", and "Together, all the way." are service marks of Cigna Intellectual Property, Inc., licensed for use by Cigna Corporation and its operating subsidiaries. All products and services are provided by or through such operating subsidiaries and not by Cigna Corporation. Such operating subsidiaries include Connecticut General Life Insurance Company, Cigna Health and Life Insurance Company, Tel-Drug, Inc., Tel-Drug of Pennsylvania, L.L.C., and HMO subsidiaries of Cigna Health Corporation. "Cigna Specialty Pharmacy Services" refers to the specialty drug division of Tel-Drug, Inc. and Tel-Drug of Pennsylvania, L.L.C., doing business as Cigna Home Delivery Pharmacy. All models are used for illustrative purposes only.
