Urgency:
☐ Standard ☐ Urgent (In checking this box, I attest to the fact that applying the standard review time frame may seriously jeopardize the customer's life, health, or ability to regain maximum function)

Medication Requested: ICD10:
☐ Aralast NP 500mg vial
☐ Aralast NP 1000mg vial
☐ Glassia 1000mg vial
☐ Prolastin C 1000mg vial
☐ Zemaira 1000mg vial
☐ Zemaira 4000mg vial
☐ Zemaira 5000mg vial

Dose: Frequency of therapy: Duration of therapy:
What is your patient's current weight? lb/kg (circle one)
Is this a new start or continuation of therapy?*** ☐ new start of therapy ☐ continued therapy, start date:
****If your patient has already begun treatment with drug samples, please choose "new start of therapy".*

(if continued therapy) Is there documentation of a beneficial response to this medication? ☐ Yes ☐ No

Where will this medication be obtained?
☐ Accredo Specialty Pharmacy**
☐ Hospital Outpatient
☐ Retail pharmacy
☐ Other (please specify):
☐ Home Health / Home Infusion vendor
☐ Physician's office stock (billing on a medical claim form)
***Cigna's nationally preferred specialty pharmacy*

***Medication orders can be placed with Accredo via E-prescribe - Accredo (1620 Century Center Pkwy, Memphis, TN 38134-8822 | NCPDP 4436920), Fax 888.302.1028, or Verbal 866.759.1557*

Facility and/or doctor dispensing and administering medication:
Facility Name: State: Tax ID#:
Address (City, State, Zip Code):

Where will this drug be administered?
☐ Patient's Home
☐ Hospital Outpatient
☐ Physician's Office
☐ Other (please specify):

***NOTE:** Per some Cigna plans, infusion of medication MUST occur in the least intensive, medically appropriate setting.*

Is this patient a candidate for re-direction to an alternate setting (such as alternate infusion site, physician's office, home) with assistance of a Specialty Care Options Case Manager? ☐ Yes ☐ No (provide medical necessity rationale):

Is the requested medication for a chronic or long-term condition for which the prescription medication may be necessary for the life of the patient? ☐ Yes ☐ No

What is your patient's diagnosis?

☐ Alpha1-Antitrypsin Deficiency-Associated Panniculitis
☐ Alpha1-antitrypsin deficiency with emphysema (or chronic obstructive pulmonary disease [COPD])
☐ Alpha1-Antitrypsin Deficiency without Lung Disease, even if Deficiency-Induced Hepatic Disease is Present
☐ Bronchiectasis (without alpha1-antitrypsin deficiency)
☐ Chronic Obstructive Pulmonary Disease (COPD) without Alpha1-Antitrypsin Deficiency
☐ none of the above/other

(if none of the above/other) What is the diagnosis related to use?

Clinical Information

*****This drug requires supportive documentation (genetic testing, chart notes, lab/test results, etc). Supportive documentation for all answers must be attached with this request.*****

Is documentation being provided that the patient has a baseline (pretreatment) alpha1-antitrypsin serum concentration of less than 11 mcM (11 mcmol/L) [less than 80 mg/dL if measured by radial immunodiffusion or less than 57 mg/dL if measured by nephelometry]? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

Is documentation being provided that genotyping or phenotyping demonstrates one of the following types: ZZ, (null)(null), Z(null), SZ or other rare disease-causing alleles associated with serum alpha1-antitrypsin (AAT) level less than 11 mcmol/L? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if Alpha1-Antitrypsin Deficiency with Emphysema [or Chronic Obstructive Pulmonary Disease]) At baseline (prior to initiation of an alpha1-proteinase inhibitor), is documentation being provided of a forced expiratory volume in 1 second (FEV1) less than 65% of predicted? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if no or unknown) At baseline (prior to initiation of an alpha1-proteinase inhibitor), is documentation provided of an accelerated decline in lung function (accelerated decline in lung function includes FEV1 decline greater than 100 mL/year or a decline in diffusing capacity of the lungs for carbon monoxide [DLCO] greater than 15% per year)? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if no or unknown) At baseline (prior to initiation of an alpha1-proteinase inhibitor), is documentation provided that supplemental oxygen required at rest or with exertion? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if Alpha1-Antitrypsin Deficiency with Emphysema [or Chronic Obstructive Pulmonary Disease]) According to the prescriber, is the patient currently a NON-SMOKER? ☐ Yes ☐ No

(if Alpha1-Antitrypsin Deficiency with Emphysema [or Chronic Obstructive Pulmonary Disease]) Is this medication prescribed by or in consultation with a pulmonologist? ☐ Yes ☐ No

(if panniculitis) Is documentation being provided that the diagnosis of panniculitis confirmed by skin biopsy? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if panniculitis) Is documentation being provided that the patient has moderate to severe panniculitis? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if no) Is documentation being provided that the patient has mild panniculitis? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if yes) Has the patient tried dapsone? ☐ Yes ☐ No

(if yes) Is documentation being provided that the patient experienced inadequate efficacy or significant intolerance with dapsone? - Please note: Documentation may include, but is not limited to, chart notes, laboratory tests, claims records, and/or other information. Medical documentation specific to your response to this question must be attached to this case or your request could be denied. ☐ Yes ☐ No

(if no) Does the patient have a contraindication to dapsone according to the prescriber? ☐ Yes ☐ No

(if panniculitis) Is this medication prescribed by or in consultation with a pulmonologist or dermatologist? ☐ Yes ☐ No

Additional pertinent information *(including prior therapy, disease stage, performance status, and names/doses/admin schedule of any agents to be used concurrently):*

Attestation: I attest the information provided is true and accurate to the best of my knowledge. I understand that the Health Plan or insurer its designees may perform a routine audit and request the medical information necessary to verify the accuracy of the information reported on this form.
