Facility and/or doctor dispensing and administering medication:
Facility Name: State: Tax ID#:
Address (City, State, Zip Code):

Is the requested medication for a chronic or long-term condition for which the prescription medication may be necessary for the life of the patient? ☐ Yes ☐ No

Diagnosis:
☐ open-angle glaucoma
☐ ocular hypertension
☐ Other (Please specify):

Clinical Information:
Is the requested drug being prescribed by, or in consultation with, an ophthalmologist? Yes ☐ No ☐

The covered alternatives are: TWO ophthalmic prostaglandins either as monotherapy or as concomitant therapy (examples of ophthalmic prostaglandins include, bimatoprost, latanoprost, latanoprostene bunod, tafluprost, travoprost). For the alternatives tried, please include drug name and strength, date(s) taken and for how long, and what the documented results were of taking each drug, including any intolerances or adverse reactions your patient experienced.

Per the information provided above, which of the following is true for your patient in regards to the covered alternatives?

☐ The patient tried 2 of the alternatives, but none of these drugs worked well enough.
☐ The patient tried 2 of the alternatives, but they did not tolerate any of them.
☐ The patient cannot try 2 of these alternatives because of a contraindication to each of these drugs.
☐ Other

For each alternative that your patient didn't try, please provide details why they can't try that alternative [including: contraindications according to the FDA label; warnings per the prescribing information (labeling); disease characteristic or clinical factor the patient has; inability to administer the covered alternative and requires this dosage formulation].

The covered alternatives are: TWO ophthalmic products (either as monotherapy or as concomitant therapy) from TWO different pharmacological classes for the treatment of this diagnosis (for example, beta-blockers, alpha-agonist [brimonidine], carbonic anhydrase inhibitors, and rho kinase inhibitor [netarsudil]). For the alternatives tried, please include drug name and strength, date(s) taken and for how long, and what the documented results were of taking each drug, including any intolerances or adverse reactions your patient experienced.

Per the information provided above, which of the following is true for your patient in regards to the covered alternatives?
☐ The patient tried 2 of the alternatives from different classes, but none of these drugs worked well enough.
☐ The patient tried 2 of the alternatives from different classes, but they did not tolerate any of them.
☐ The patient cannot try 2 of these alternatives from different because of a contraindication to each of these drugs
☐ Other

For each alternative that your patient didn't try, please provide details why they can't try that alternative [including: contraindications according to the FDA label; warnings per the prescribing information (labeling); disease characteristic or clinical factor the patient has; inability to administer the covered alternative and requires this dosage formulation].

Additional pertinent information *(including prior therapy, disease stage, performance status, and names/doses/admin schedule of any agents to be used concurrently):*

Attestation: I attest the information provided is true and accurate to the best of my knowledge. I understand that the Health Plan or insurer its designees may perform a routine audit and request the medical information necessary to verify the accuracy of the information reported on this form.
