

SPECIALTY PHARMACY DRUG LIST

July 2015

Specialty medications are used to treat complex conditions like multiple sclerosis, hepatitis C and rheumatoid arthritis. Although some are oral medications, the majority of specialty drugs are injected and may require special handling (e.g. refrigeration). As part of your pharmacy benefits plan, you have access to Cigna Specialty Pharmacy Services to deliver these medications.

How it works

When your doctor prescribes a specialty medication, they'll call in or fax the prescription to:

Cigna Specialty Pharmacy Services

800.351.3606 (phone)

800.351.3616 (fax)

Cigna Specialty Pharmacy Services creates a personalized experience that educates and motivates each customer to become active, accountable and confident. We offer the tools to connect and engage you along your health care journey. Our services include 24-hour access to nurses and pharmacists, education about your prescription medications and refill reminders.

Once your prescription order is received and processed, we'll call you to schedule a date and time for delivery. Orders will be delivered to any address you choose for delivery (e.g., home, office, doctor's office).

For all proactive refills or any orders over \$4,000, delivery arrangements need to be made and confirmed with our pharmacy before we can send them to you.

If the pharmacy is not able to reach you, they'll leave a message for you to call them back. The pharmacy can't deliver the medications without your approval, so delivery will be delayed until you reply.

If you need to fill your prescription right away, you may be able to fill your prescription at a local network retail pharmacy. However, you'll only get up to a 30-day supply and must fill the rest of your prescription through Cigna Specialty Pharmacy Services. If your plan offers out-of-network coverage, you can get your

prescription at an out-of-network pharmacy, but your out-of-pocket cost will likely be much higher.

Please note: Some medications listed here may need to be obtained through your doctor's office or other medical facility. In these cases, your medications will be covered under your medical benefit instead of your pharmacy benefit. This will affect the amount you pay out-of-pocket. Check your plan documents for more information.

Health care reform and you

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as "health care reform," was signed into law on March 23, 2010. This important legislation will result in changes to every American's health coverage. Some of the changes took effect in 2010, and most of the law's effects will be felt by 2014. Cigna will comply with all provisions of the law including those that impact your pharmacy coverage plan. For example, depending upon the final government regulations, coverage for medications that have not traditionally been included in pharmacy plans, such as specific over-the-counter (OTC) medications, may be made available at no cost share to you. As with all covered medications, we require a

prescription from your doctor to process the claim under your pharmacy plan (including OTC medications).

To get the most current information, visit **InformedOnReform.com** or **Cigna.com** and look for the "Informed on Reform" link.

Together, all the way.®

Offered by: Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company or their affiliates.

Questions?

Below is a list of medications that must be filled through Cigna Specialty Pharmacy Services to be covered under your pharmacy benefit. *Please note: This list is subject to change.* For more information, you can visit **myCigna.com** or call customer service using the number on the back of your ID card at any time, and we'll be happy to help.

* These medications must be obtained from a preferred specialty pharmacy. Only your first prescription can be obtained at a network retail pharmacy. All subsequent refills must be obtained through a preferred specialty pharmacy. To maximize your benefits, all other medications are available through Cigna Specialty Pharmacy Services, at a network retail pharmacy or through your doctor's office, if necessary.

^ Check your plan materials to determine if this Growth Hormone medication is covered under your plan.

"Cigna" and the "Tree of Life" logo are registered service marks, and "Cigna Home Delivery Pharmacy" and "Together, all the way." are service marks, of Cigna Intellectual Property, Inc., licensed for use by Cigna Corporation and its operating subsidiaries.
